

PINCHOT MAY SPEAK TO M. U. STUDENTS

Efforts Being Made to Get Former Forester for Farmers' "Stunt."

FAIR TO BE DIFFERENT

Will Be Educational This Year as Well as Popular Take-off.

The annual fair of the University of Missouri, which has been held for many years, is being held this year as well as a popular take-off. The fair is being held at the University of Missouri, and is being held for the purpose of raising money for the University of Missouri. The fair is being held at the University of Missouri, and is being held for the purpose of raising money for the University of Missouri.

NEGRO SHOT HIS WIFE

Burton Turned On Woman After Trying to Kill Himself.

Because his wife tried to take a revolver from him when he attempted to shoot himself this morning, John Burton, a negro, fired four shots at her, one bullet striking her in the left side. He was brought to the police station by two negroes and locked up. His wife is expected to recover.

It is said that Burton attempted suicide about five weeks ago. He has worked for W. B. Nowell the last twelve years. He will be taken before the county court next week, and if adjudged insane, will be sent to the state hospital for the insane at Fulton. He lives at 107 West Park avenue.

SUES THE CITY FOR \$1,000

Mrs. Quinn Asks Damages as Result of Street Grading.

The damage suit of Mrs. Miriam J. Quinn against the City of Columbia is being tried in the circuit court today. Mrs. Quinn asks \$1,000 because the city raised the grade of the sidewalk ten feet higher than her lot on St. Joseph street, thus making entrance of vehicles impossible. Mrs. Quinn says that this makes necessary the raising of the grade of her lot to that of the sidewalk, and the raising of the house and sidewalks corresponding.

A LIGHT FROST TONIGHT?

Tomorrow Will Be Fair and Slightly Warmer.

The weather forecast for Columbia and vicinity is: "Fair tonight with probably light frost in low places; Thursday fair and slightly warmer." The temperatures:

7 a.m.	42	11 a.m.	50
8 a.m.	44	12 noon	52
9 a.m.	47	1 p.m.	54
10 a.m.	49	2 p.m.	55

GIRLS' STUDY-ROOM A "GYM"

University Women Practice at Night to Acquire Gracefulness.

At 8 o'clock of the evening, you know some of the girls in the gymnasium, for they are practicing in form and acquiring gracefulness. They are practicing in form and acquiring gracefulness. They are practicing in form and acquiring gracefulness.

Not content with their account of the girls, they are practicing in form and acquiring gracefulness. They are practicing in form and acquiring gracefulness. They are practicing in form and acquiring gracefulness.

One girl is so enthusiastic about the "gym" that she intends sending her for some apparatus. They all declare their intention to keep up their daily exercise until the end of the semester. Last night, after only an hour's exercise, each said that she could see the improvement in herself already.

MORE STREET PAVING

Council Passes Resolutions for Improvements—New Sewers Ordered.

Contracts for the construction of four new sewer districts and resolutions for more than three miles of street paving passed the city council last night. The sewers will be built in the southern part of town and two in the northern part, at a total cost of more than \$15,000. The contracts for sewerage were let to C. A. Stewart for \$12,000, and to the Columbia Paving company for \$3,000, sewerage for \$6,745, and sewerage for \$1,255.

Resolutions ordering the paving of the following streets were drawn: Willis avenue, 24 feet wide, from Broadway to Bass avenue; Rollins street, 24 feet wide, from Providence road to Hill street; Sexton road, 24 feet wide, from Third street to the city limits; Third street, 24 feet wide, from Hickman avenue to Sexton road; Hickman avenue, 24 feet wide, from Eighth street to Third street; Waugh street, 30 feet wide, from Broadway to Locust street; and Broadway, 35 feet wide, from Price avenue to Williams street. The resolutions for each street will have to meet the approval of a majority of the property owners on the street before the council can order the construction.

The contract for the publication of 2,500 copies of Dean H. B. Shaw's report and recommendations concerning a new water and light plant was awarded to the E. W. Stephens Publishing company, at the recommendation of the committee appointed to advertise for bids. The work on these pamphlets will begin at once.

The council approved the contract with T. J. Morris to supply water to the city from one of his wells at 11 cents a 1,000 gallons. The contract is for one year, with an option for continuance for three years. The connections between the ice plant wells and the city mains will be constructed this week, as the contract becomes effective April 20.

Tax bills for completed paving and sidewalks were ordered to be paid. Granite walks on Hickman avenue, from Eighth street to Washington avenue and on the west side of Willis avenue, from Broadway to Bass avenue, were ordered and the matter of the construction of a new walk on the west side on Tenth street, from Broadway to Ash street, was left to the street committee. The salaries of the councilmen and the mayor for the last year were ordered paid.

WOMEN TO RE-OPEN NEXT WEEK

Hotel in Columbia Being Re-decorated and Refurnished.

The Powers hotel, corner Tenth and Walnut streets, probably will be re-opened the first of next week. The building is being remodeled and refurnished. It will be under the management of J. S. Poole. The Powers hotel is the oldest hotel in Columbia and was for years a favorite gathering place for state politicians.

ACACIA CONCLAVE HERE

National Meeting Will Be Held in Columbia Next Summer.

The National grand convocation of the Acacia fraternity for 1910, will be held at the University of Missouri next summer. The meetings will be held at the Acacia house in Columbia. More than thirty delegates and officers of the organization will attend the meeting. The convocation last year was held in Philadelphia.

A LANDLADY'S VIEW OF THE NEW RULES

Objects to Provision That Girls May Choose Nights For Callers.

WOULD KEEP HER UP LATE

Dislikes the Idea of Being Told How to Run Her Boarding House.

Boarding house keepers of Columbia—some of whom last night objected to the new rules of the university women, who are to be put to the rule of the new rules, which will keep the girls up late every night. They say that if it is passed they will be kept up until 10:30 o'clock every night.

"It seems to me," said one yesterday, "that we should have some voice in the making of these rules. We are just as much affected by them as the girls are. It may be true that they are designed as much for the landladies as for the girls, but I, for one, object to being told just how I shall run my own house."

"I understand that the girls are to vote upon a rule that the landlady may not dictate the nights on which the girls may receive callers. If this rule is passed, no two girls will wait calling engagements on the same night, and as a result they will entertain callers seven nights in the week. This is unreasonable and unfair to the landlady. If rules are to be made regarding the conduct of young ladies in the landlady's charge, certainly she should be consulted."

This rule is one of those to be acted upon at the mass meeting of the university women, called by Miss Mary Latham, chairman of the Women's Council, for 4:30 o'clock tomorrow afternoon.

MARCH WITHOUT MUCH WIND

And few Dryness Last Month Holds the Record.

March which has just passed made an unusual record, for many unusual things occurred in the month that persons began to doubt whether it was March at all. Some were inclined to believe the sunny days of June or the hot days of July had suddenly come. In fact, the record for sunshine did equal the highest record for August.

Usually March is the windy month of the year, but not so this time. The number of miles of wind, according to the weather bureau here, for the whole month was 6,533 which falls 1,222 miles below the normal wind movement for March. The highest velocity was 31 miles an hour. In other years it has reached 51 miles.

And as to dryness, the past March without question holds the record. No other March on record has ever made such a showing, says George Reeder, director of the bureau. There were twenty-seven clear days, only two wholly cloudy days, and the rainfall was slight. The dryness of the atmosphere was another feature of the month. The relative humidity was only 51 per cent, which is not only the lowest for any March, but for any month. On several days, in the afternoon, the relative humidity fell below 15 per cent. The normal humidity for March is 69 per cent.

The mean temperature was 56 degrees which is 4 degrees higher than for any March in the last twenty years. The highest day temperature was 90 which has been exceeded only once since the weather station has been established in Columbia. That was in 1907. There was no freezing temperature after March 15.

SHALL MEN BE INVITED

Basketball Girls Will Discuss This Question Relative to a Dance.

Shall we have a dance? When? Where? What kind? These are questions posted for discussion at the meeting of the basketball girls in the women's gymnasium tomorrow morning. The last question refers to whether the girls shall invite their men friends, or give the affair for the girls only.

ONLY ONE NEW MAN ELECTED TO COUNCIL

Fountain Rothwell Succeeds Emmett McDonnell in Second Ward.

SCHOOL DIRECTORS CHOSEN

A. H. Shepard, Republican, is Only Member of His Party to Get an Office.

The result of the city election yesterday, placed only one new man in the city council. Fountain Rothwell, former mayor of Boone, Mo., was elected to the second ward to take the place of Emmett McDonnell. The candidates in the three other wards were candidates for reelection.

C. W. Harrell, in the first ward, received 112 votes; Eugene Rothwell, 102 votes; A. C. Spencer, in the third ward, 89 votes, and L. M. Deane, in the fourth ward, 87 votes. The first meeting of the new council will be held next Tuesday night.

A. H. Shepard and J. H. Guitier were elected school directors in the school district of Columbia. W. B. Nowell was the third candidate. Mr. Shepard was the only Republican candidate for office. He received 384 votes. Mr. Guitier received 414 votes and Mr. Nowell 290 votes.

The proposition to increase the annual rate of taxation from 40 cents to 50 cents on the \$100 valuation for school purposes in this district was carried by a vote of 384 to 75.

ON "THE COST OF LIVING"

Prof. P. F. Trowbridge Will Give His Lecture Again Thursday Night.

Fifty girls in the department of home economics of the University of Missouri, members of the senior and freshmen classes will attend a lecture by Dr. P. F. Trowbridge, professor of agricultural chemistry Thursday night and make notes of his address as they would in any class room. Dr. Trowbridge will talk on "The Cost of Living." He will consider the relation of costs of meats and the buying of groceries.

Miss Lela Day, professor of home economics, has not procured the use of a lecture room for Dr. Trowbridge's lecture Thursday night, but she is arranging the meeting. The lecture was given by Dr. Trowbridge Saturday night in the physics lecture hall at a meeting of the Scientific association, but was not announced in time for Miss Day's pupils to attend.

Miss Day has asked Dr. Trowbridge to repeat his lecture and is inviting women in Columbia and all others who have the food problems to consider. The place of meeting will be announced tomorrow.

WILL TRY FOR SCHOLARSHIP

Two in University High to Contest for American Citizenship Prize.

Two pupils of the University high school will take the qualifying examinations for a scholarship in the University of Missouri in American Citizenship offered by the Missouri Society of Colonial Dames of America to the high school pupils of Missouri. They are Thomas A. Cannon and Miss Ruth Tandy.

The scholarship is valued at \$200 annually for four years and is open only to seniors who excel in ancient, mediaeval and modern history, a foreign language, English and civics. It is awarded every four years. The examination will be held April 15.

WAITING LINE AT VACCINATION

Four Hundred Students Have Taken Precaution Against Smallpox.

As a result of the advice of Miss Eva Johnston, adviser of women, 117 women were vaccinated yesterday afternoon at the Parker Memorial Hospital. This is the largest number of persons that have been treated in one day. The total number of men and women vaccinated has now reached 400. At 4:30 o'clock thirty-five women were waiting to be vaccinated. Twelve more came after that, but they were told they could not be vaccinated that afternoon.

SIGMA NUS WIN, 8 TO 6

Kappa Sigmas Defeated in Pan-Hellenic Game Monday.

The Sigma Nu baseball team defeated the Kappa Sigma team Monday afternoon by the score of 8 to 6. The Kappa Sigmas made three runs in the last inning, but could not overcome the lead the Sigma Nus had obtained in the earlier innings.

Call 55 (Double 5) to get the Missourian business office by telephone.

COMMENCEMENT BEGINS JUNE 3

Speakers Invited Here That Week Have Not Sent Acceptances.

Acceptances have not yet been received by the committee on public exercises of the University of Missouri from the men who have been asked to deliver the baccalaureate sermon and commencement addresses. Commencement week this year will be a week later than last year. It will begin Friday, June 3. On this day the professional fraternities give their banquets: the Tau Beta Pi, the engineering fraternity, Alpha Zeta and Delta Theta Sigma, agricultural fraternities, and the Phi Delta Phi, the law fraternity.

There will be little change from the program of last year. So far as the plans have gone the senior play is scheduled for Saturday, June 4; the baccalaureate sermon, Sunday, June 5; the commencement exercises, Monday, June 6; the Phi Beta Kappa day, Tuesday, June 7; Phi Beta Kappa day, the chief feature, which will be the banquet and address, Wednesday, June 8; commencement day, Thursday, June 9. Commencement exercises will be held in the morning, the alumni luncheon will be given at noon and President Hill will give his reception to the graduating members of the university the night of the same day.

TALKS ON TECHNICAL PRESS

Harwood Frost, of New York, Discusses Phase of Journalism.

"The technical press is an educational institution," said Harwood Frost, associate editor of Engineering News, New York, in a lecture in the Engineering Building last night. "It is not, however, a substitute for college work. It is rather a supplement to it. The technical paper must appeal not only to the professor and student but also to the practical engineer."

"The engineering publication tells of that which is new in engineering—new tools, new processes, work in new or better ways and progress in any old methods. It does not print material found in text books."

"The necessity for keeping up to date is responsible for the increasing number of technical works. A recent book on aerial navigation was out of date before it came from the printing press. The record flights given in the book were broken while the book was being printed."

Statistics show the increasing volume of technical literature. A list of engineering works from 1600 to the present time contains 530 titles. Of these fifteen were written in the seventeenth century, fifty in the eighteenth, 250 in the nineteenth and 150 in the first ten years of the present century.

TRACK MEET SATURDAY

Varsity Men Will Run in Inter-Class Contest.

The annual inter-class track meet will be held on Rollins Field at 10 o'clock Saturday morning. The preliminary heats of the dashes and hurdles will be held Friday afternoon. The rivalry between the juniors and freshmen is keen, because most of the Varsity track team will run on the junior team against the strong freshman team.

The annual inter-department relay games will be held Saturday, April 15. The regular track and field events will be contested by four men from each department in each event. In the field events the best average distance or height of the four men on each team will be counted for points.

RAIN STOPS TIGERS' PRACTICE

Baseball Men to Work Hard Rest of Week for Warrensburg Game.

Because of the rain the baseball team was able to get only a little practice Monday and none Tuesday. Marshall was the only player to practice yesterday in Rothwell Gymnasium. He probably will pitch against the Warrensburg State Normal team next Saturday. The team will practice hard from today until the game is called Saturday. Collier, who sprained an ankle while running the bases last Thursday, is improving. He will report for practice next week.

"ACADEMS" ELECT SAVITAR MEN

Royal Fillmore and Earl Estes on Staff of 1911 Annual.

The sophomore class of the College of Arts and Science yesterday afternoon elected as its Savitar representatives for next year Royal Fillmore and Earl C. Estes. Fillmore is from Kansas City and Estes from Richmond, Mo.

L. H. Campbell and D. E. Impy were elected members of the academic council.

Miss Torr Is Elected Captain.

Miss Maude Torr has been elected captain of the freshmen girls' basketball team for next year.

LOST: FIFTY-SEVEN GRADUATES OF M. U.

Who Can Tell Dr. W. G. Bek the Addresses of the Missing Alumni?

SOME "LOST" IN COLUMBIA

It is Suggested That the Alumni Recorder Lower His Telescope.

Where, oh where, are the fifty-seven graduates of the University of Missouri who have been "lost" since 1906? Fifty-seven graduates of the University of Missouri who have been "lost" since 1906.

After making the entire United States with a line-stated compass, and, figuratively, a compass, W. G. Bek, the Alumni Recorder, has been unable to find the whereabouts of the "lost" ones. This is true, although some of the "lost" ones live in Columbia, and one, at least, is a student in the university, and at least three or four have visited in Columbia this year. But apparently all have been hiding from Mr. Bek—maybe to escape paying alumni dues.

In a letter to the University Missourian, Mr. Bek says: "I feel that by bringing the names to the attention of the people, some one will know about them and help us get the right address."

The University Missourian volunteers the following information to Mr. Bek about some of the "lost" ones:

Miss Inez Spicer, B. S. in Education, '09, is employed in the university library.

Samuel N. Erwin, A. B., '09, is a leading agent at the U. D. club.

Edmund Wilkes, Jr., B. S. in C. E., '09, lives in Columbia.

Lower your telescope, Mr. Bek. The names of the "lost" alumni will be found on page 2 of this issue.

COMET FRIDAY MORNING

You Must Get Up at 3 O'clock if You Want to See It.

If the atmosphere is not dusty or hazy and the comet bright enough, Halley's comet will be visible to the naked eye Friday morning, say some astronomers. It will rise about two and a half hours before sunrise, or about 3 o'clock in the morning, in the constellation of Pegasus. It cannot be seen, however, until about a half hour before sunrise because of the twilight.

E. S. Haynes, instructor of astronomy at the Laws Observatory of the university said this morning that he did not think observations of the comet would be made through the telescope here.

"We shall make no more special preparations to see the comet than the ordinary interested observer," he said.

There is some disagreement among astronomers as to when Halley's comet can be seen. The director of Lick Observatory California, estimates that it should be seen April 8. The Observatory, an English astronomical magazine, says that it will not be visible before April 20.

A list of reference books on the comet has been posted in the university library.

AGRICULTURE FOR TEACHERS

Courses in the University to Train for Rural Positions.

The College of Agriculture of the University of Missouri is the first school in America to offer courses in agriculture for the instruction of teachers. This feature of the department which was first tried last year will be used again in the coming summer session.

Practical courses in agriculture for the teachers of rural schools and teachers of agriculture in high schools have been arranged. These will be given in such a way that the teachers may observe practical and valuable subjects which will be taught in the schools. The courses will be illustrated by actual work on the state farm.

All-Freshman Class Election.

The all-freshman class will hold its annual class election in the auditorium of Academic Hall at 7:30 o'clock tomorrow night.
